EDUCATION

University of New South Wales

Bachelor of Engineering (Honours) (Mechanical) | 2026–2029

Relevant Coursework: Programming, Engineering Mathematics, Calculus, Electrical Circuits

Previous study toward Bachelor of Data Science and Decisions | 2025

Relevant Coursework: Computational Data Science

TECHNICAL SKILLS

Languages: JavaScript, C++, C, Python, Java, MIPS Assembly

Developer Tools: Git, GitLab, GitHub, Linux, Visual Studio Code

Engineering & Design: SolidWorks, Fusion CAM, Onshape, RIVET, Excel

Hardware: Breadboard Prototyping, Circuit Testing, Signal Analysis, Oscilloscopes, Multimeters

SOFTWARE PROJECTS

JavaScript Group Project | University Project

- Collaborated in a five-person team to develop a JavaScript software project, coordinating assigned tasks and contributing within a shared codebase.
- Gained foundational experience with Git-based development in GitLab, collaborative version control and team software-development workflows.

Snake Game | C++ | University Project

- Developed a 500+ line object-oriented Snake game with movement, collision detection, score tracking and game-state management.
- Debugged and tested edge cases involving boundaries, self-collision and game restarts.

Endless-Runner Game | MIPS Assembly | University Project

- Built an endless-runner game using registers, branching and memory operations to implement movement, obstacle detection and score-based logic.

EXPERIENCE

Shoes & Sox | Retail & Fitting Assistant | June 2025–Present

- Generated \$50,000+ in sales during the Back-to-School trading period by providing tailored footwear recommendations.
- Served 80–120 customers per shift, accurately processed 100+ daily transactions and collaborated with colleagues during peak periods.

LEADERSHIP & EXTRACURRICULARS

No Code Society UNSW | Director

- Delivered workshops introducing students to AI, automation and no-code development tools.
- Initiated business outreach, including engagement with Base44 for an upcoming student hackathon.

UTS North Sydney Bears | Grade Cricketer

Compete at a high-performance level while balancing engineering studies, society leadership and part-time employment.
